Notes & Details

Display your signature cakes, pies, and eclairs with ease using this Avantco BC-36-SW 36" white refrigerated square bakery display case with LED lighting. This floor unit is made to allow you to place your baked goods in a convenient location where they can merchandise themselves to hungry customers. Whether you are looking for a bakery case to place at the front of your cafe near your point of sale, or a refrigerated case to set up in your diner where the customers can see your dessert selection while they eat, this unit is a great option.

This bakery display case features ultra-clear glass and bright, cool LED lighting that is designed to show off your chilled baked goods! With a proper display, your bakery items can merchandise themselves and increase impulse sales. The case also has three durable interior heavy-duty tempered glass shelves that you can adjust depending on the items you want to display.

The flat front glass provides an unobstructed view of your food while the side glass panels and rear glass access doors ensure that customers can see the case's contents from any angle. A specialized air outlet design circulates air against the heated glass front to reduce and prevent the build-up of condensation. Without condensation to get in the way, your customers will always have clear visibility to your tempting desserts!

This model uses R-290 refrigerant to keep the interior temperatures at safe levels between 33-40 degrees Fahrenheit. This specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. It requires a 110V electrical connection for operation.
