## Avantco BCAC-36 36" Black Curved Dual Service Refrigerated Air Curtain Merchandiser - 110V

Item #224BCAC36

### Technical Data

Width	36 Inches
Depth	32 Inches
Height	59 Inches
Power Cord Length	70 7/8 Inches
Amps	7.8 Amps
Phase	1 Phase
Voltage	110 Volts
Access Type	Doors
Capacity	12.5 cu. ft.
Color	Black

### Features

- Bright, cool LED lighting to illuminate product
- Durable and reliable 300 series stainless steel construction
- Energy-saving night cover included for off hours
- Made of foamed-in-place CFC-free polyurethane insulation and corrosion-resistant 304 stainless steel
- Easy-to-use digital temperature controller; R290 refrigerant; 115V, 3/4 hp

### Certifications

5-15P

ETL Sanitation

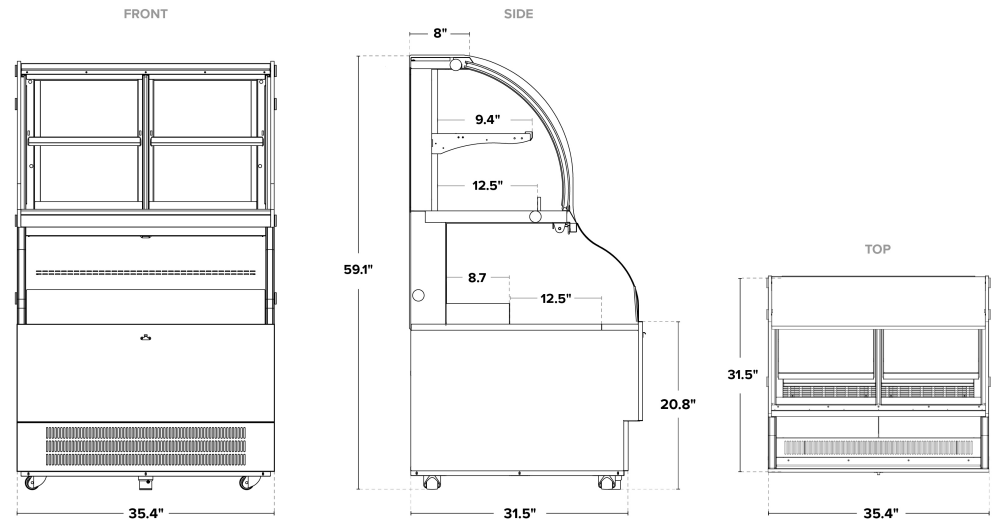

ETL, US

## Technical Data

Display Case Type	Refrigerated
Door Style	Sliding
Door Type	Glass
Glass Style	Curved
Horsepower	3/4 HP
Installation Type	Freestanding
Number of Doors	1 Doors
Number of Shelves	2 Shelves
Plug Type	NEMA 5-15P
Refrigerant Capacity	4.9 oz.
Refrigerant Type	R-290
Service Type	Dual Service
Style	Combo Horizontal
Temperature Range	33 - 40 Degrees F

## Plan View

## Notes & Details

Attractively present your fresh baked goods with this Avantco BCAC-36 36" black curved dual service refrigerated open display merchandiser. This contemporary case keeps contents sanitary while beautifully displaying them on clear tempered glass shelves. Having a dual service open air merchandiser is sure to boost your impulse sales, because customers can clearly see the products you're offering behind the strong glass front, or select products of their choosing from the bottom open air part of the unit. The versatile top section can be adjusted to hold product at room temperature, refrigerated temperature, or can even be divided down the middle to hold product and accommodate both temperatures at the same time.

For outstanding durability, this sleek black combination air-curtain bakery case is made of durable stainless steel, both inside and out. Coupled with the tempered glass shelves, this unit will provide maximum durability, so that you can confidently display your products. The sliding door on the top part of the dual unit protects food from becoming stale, but also provides easy access to products so your staff can quickly serve your guests. The front curved glass is anti-fogging and allows for maximum visibility for merchandising bakery items. Giving you the best of both worlds, this unit's open-air design is perfect for adding last minute upsell drinks or packaged foods to a customer's order, while the bakery case allows for sanitary service of muffins, bagels, cakes, pastries, and pies.

The digital temperature controller ensures quick temperature readability, and for convenience, the unit has an auto defrost function so your staff won't need to set aside valuable time to schedule a defrost. A 3/4 hp compressor keeps the unit operating at temperatures between 33-40 degrees Fahrenheit, while circulating R290 refrigerant. This unit's specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. However, not only do you get the satisfaction of using an unit, this merchandiser is also characterized by its low energy consumption, which will save you money. A 110V electrical connection is required for operation.
