

Avantco CRR-2-HCW White Countertop Rotating Refrigerated Cake Display

Item #360CRR2HCW

Technical Data

Height	38 3/4 Inches
Diameter	17 3/4 Inches
Power Cord Length	94 Inches
Interior Height	25 3/8 Inches
Voltage	115 Volts
Access Type	Doors
Capacity	2.47 cu. ft.
Color	White
Compressor Location	Bottom Mounted
Display Case Type	Refrigerated

Features

- Bright LED lighting illuminates your cakes and pies
- Intuitive digital temperature controls with back-lit light switch
- Rotating display gives 360 degree view of your desserts
- Single, easy-open door with full length handle that opens to four levels of display
- 115V; 1/6 hp; R290 refrigerant

Certifications

ETL, US

Intertek

ETL Sanitation

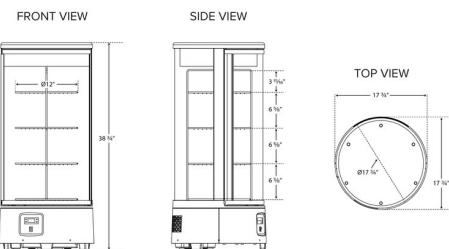

5-15P

Technical Data

Door Style	Swing
Door Type	Glass
Features	LED Lighting, Lighted Interior, Revolving Shelves
Glass Style	Curved
Horsepower	1/6 hp
Installation Type	Countertop
Number of Doors	1 Doors
Number of Shelves	4 Shelves
Plug Type	NEMA 5-15P
Refrigerant Capacity	1.7 oz.
Refrigerant Type	R-290
Service Type	Full Service
Temperature Range	33 - 40 Degrees F
Total BTU	665 BTU
Type	Countertop Bakery Cases

Plan View

Notes & Details

Give your patrons a 360 degree view of your delicious cakes and pies! With the Avantco CRR-2-HCW white countertop rotating cake display, you can show off your decadent dessert options at eye level and save on precious floor space. As opposed to a traditional floor display case, this case sits right on top of the counter and is impossible for your customers to ignore.

Bright interior LED lighting will illuminate the contents of the case with clean white light, while also being energy efficient and not creating any heat that could potentially cause melting. Intuitive, front of unit, digital controls are easy to use and will ensure that your case is at the ideal temperature. The glass allows for clear visibility and with the built-in rotating mechanism there are no blind spots on this display. The rack has 4 levels that can accommodate a total of 22 lb. so you can showcase even the heaviest of desserts. Each level can also hold up to a 12" cake, ensuring you will have space for your signature desserts. The hinged door gives easy access for both loading and removal of contents.

A 1/6 hp compressor with R290 refrigerant keep this case between 33-40 degrees Fahrenheit, while polystyrene insulation prevents the cold air from escaping. This specialized refrigerant has an ozone depletion (ODP) of 0 and a global warming potential (GWP) of 3. An automatic defrost system comes standard and will save you both time as well as energy. A 115V electrical connection is required for operation.
