Notes & Details

This Backyard Pro fry pot with a single basket is the perfect addition to any outdoor party or catered event when paired with an outdoor range. Whether you're cooking up fried chicken, french fries, or breaded vegetables, this fry pot prevents you from having to constantly go inside to cook when the event is taking place outside.

The 18 qt. pot comes with a single fry basket so you can fry up a larger batch at one time. Dual side handles on the pot allow for easy transportation to and from the stove or table, as well as easy oil disposal.

This fry pot is great for settings where you don't have access to a kitchen, such as tailgating events or camping trips. Just because you're outdoors doesn't mean you can't have delicious fried food! This unit is ideal for use with select outdoor fryers and is not recommended in commercial kitchens.
