- Includes an adjustable 10 PSI hose and regulator
- Durable, steel construction
- Versatile for all your outdoor cooking, steaming, and frying needs

Certifications

Portable LP Tank Connection

# BACKYARD PRO

Backyard Pro

## Notes & Details

Deep fry a turkey on one burner and steam vegetables on the other with this versatile Backyard Pro 32" double burner outdoor range! Each liquid propane burner boasts 75,000 BTU of cooking power and independent control valves, so whether you're steaming clams, boiling corn-on-the-cob, or frying a turkey, you'll be able to achieve the results you want every time. Convenient wind guards on the back and sides of the unit are included to protect the food and the burner flame from strong wind.

With a generous 32" x 16" cooking surface, you'll have plenty of room to hold stockpots with a bottom diameter of up to 16". This outdoor range even accepts cast iron cookware or griddle plates to provide you with more cooking options. It boasts a high performance 10 PSI adjustable liquid propane regulator so that you can safely hook up your liquid propane tank.

This portable range is a perfect addition to any tailgating party, camping trip, or backyard BBQ. It provides you with the cooking power of a range combined with the convenience of portability. You can easily transport this range to the event site, connect your propane, and be up and running in no time. A sturdy, welded frame ensures this portable range is built to last and can easily withstand years of use. To prevent warping, use this griddle with the first third of the temperature control, the remaining two thirds are best used for boiling and frying applications.
