- Makes moving your grill or fryer easier on uneven surfaces
- Direct replacement to the wheel that came with your grill
- Hardware included

Notes & Details

Take your grill to outdoor events or make moving it around your outdoor cooking area easier with this Backyard Pro 14" wheel kit with hardware for propane grills and fryers. Large wheels can more easily navigate pavers or crushed stone than smaller wheels which are better suited to smooth surfaces like concrete. Each 14" wheel attaches to the leg of your grill for improved mobility. Use it to replace a worn or broken wheel, or simply use it as an upgrade for your existing grill or fryer.
