

BACKYARD PRO

Backyard Pro Grill Radiant for Liquid Propane Grill

#554BYPBNRSLD

Technical Data

Type	Radiants
------	----------

Features

- Sits over top of burner tubes
- Protects burners from food drippings
- Helps disperse heat evenly
- Extends life of burner as well as overall grill

Notes & Details

This Backyard Pro grill replacement radiant is perfect for protecting your tube burners from grease drippings. Grease can clog up the perforations of the burner and prevent proper propane flow. It also helps more evenly distribute the heat coming from the burners to assist in preventing cold spots.
