- Ships assembled for optimum convenience

Technical Data

Power Type	Charcoal Wood
Type	Pig Roasters Smokers

Notes & Details

Give customers the rich, smoky taste they desire with this assembled Backyard Pro 60" charcoal / wood smoker grill with adjustable grates and dome! When the weather is warm and your patrons are hungry, nothing is more satisfying than getting outside and cooking up your signature meats and vegetables for them to enjoy! Simply put your product inside the unit, slow cook it to perfection, and watch as the smoky flavor transforms it into a mouth-watering dish. With a 60" x 24" footprint, you'll have plenty of room to smoke ribs, brisket, or even an entire pig! Plus, this smoker fits comfortably on any deck or patio, while still leaving plenty of room for a bar, outdoor seating area, or fire pit. And, thanks to the durable 14 gauge stainless steel charcoal pan construction, this smoker is capable of withstanding the wear and tear of an outdoor environment.

Thanks to 3 different height levels, you can adjust the placement of your cooking grate to accommodate log size, charcoal, or different food products. The adjustable grate height allows for 8", 10 3/8", and 12 3/4" distance from the coals. This flexibility increases versatility and allows you to customize the unit to best suit your needs. This smoker also comes equipped with 2 easy-to-read thermometers so you can keep a close eye on the temperature of your products as they cook. If the temperature should get too hot, the side vents and chimney flaps can be adjusted to gain greater control over the airflow.

For maximum convenience, the lid brackets ensure that the lid won't tip the entire way back as you load and unload products. A stainless steel cooking grate easily lifts out of the unit when it's time for cleaning, and a slide out tray on the side of the unit can be quickly removed and emptied. Both the lid and sides are made out of cold rolled sheet steel, and they are 16 gauge. The included casters make mobility across cobblestones or pavement hassle-free, and the brakes help keep it stable when you want it stationary. Built with integrity in mind, this Backyard Pro charcoal / wood smoker offers you a durable, heavy-duty smoking solution for country clubs, resorts, hotels, or caterers! For maximum convenience, this unit ships assembled so that you'll be cooking in no time.
