Notes & Details

Whether you're making sweet and spicy snack sticks or savory black pepper jerky, this Backyard Pro Butcher Series JS-34P 3/4 lb. jerky shooter will have you pumping out both with the simple squeeze of a trigger! With 2 nozzles included, round for snack stickers and flat for jerky, there's no need to use separate tools for different styles.

Just simply place your meat mixture into the tube and pull the trigger so that the plunger compresses and pushes the meat through the nozzle. The tube is 9" in length and can hold up to 3/4 lb. It is made of durable plastic that is food grade and non-corrosive. This shooter has a heavy-duty drive and handle, as well as a stainless steel rod with heavy plastic piston. It's simple design including only a few components with twist lock construction makes disassembly and cleaning at the end of the day quick and easy.
