Notes & Details

Provide a comfortable seating experience for guests with this Backyard Pro silver electric outdoor patio heater. Perfect for breezy restaurant patios, decks, or other outdoor dining venues, this item is sure to help increase profits by keeping your customers warm. It features a single ruby red halogen tube with a coverage area of about 86 square feet. It also includes a convenient on-off remote control, which allows your staff to easily run the unit. Use this item to effectively extend your patio heating season or to keep the cold away from fans at your busy sporting venue!

Offerings a durable construction that's built to last, this item is sure to provide your establishment with years of service. Thanks to its IP55 waterproof rating, this product is fully protected against solid objects or water jets that are projected by a 6.3 mm nozzle from any angle. It's also safe from dust particles that could interfere with normal operation. This heater even comes with its own wall mounting bracket for easy installation and immediate use. As opposed to freestanding patio heaters, this heater's wall-mount design frees up space in aisles to allow more room for seating and foot traffic! This is a 120V, 1500W, 12.5A, 60Hz unit.
