Notes & Details

Provide a comfortable seating experience for guests with this Backyard Pro silver double tube electric outdoor patio heater. Perfect for breezy restaurant patios, decks, or other outdoor dining venues, this item is sure to help increase profits by keeping your customers warm. It features a clean and odorless double low glare golden tube that provides 20% more heat than halogen heating elements. This gives you a coverage area of about 129 square feet. It also includes a convenient on-off remote control, which allows your staff to easily run the unit. Use this item to effectively extend your patio heating season or to keep the cold away from fans at your busy sporting venue!

Offering a durable construction that's built to last, this item is sure to provide your establishment with years of service. Thanks to its IP44 waterproof rating, this product is fully protected against solid objects over 1 mm in size, like small wires or tools. It's also safe from water projected from any angle. This heater even comes with its own wall mounting bracket for easy installation and immediate use. As opposed to freestanding patio heaters, this heater's wall-mount design frees up space in aisles to allow more room for seating and foot traffic! This is a 220-240V, 3000W, 12.5A, 60Hz unit.
