Usage	Indoor Outdoor

Notes & Details

Keep your workspace warm and comfortable with this Boltic infrared heater! This 3,000W heater provides instant heat for commercial spaces. It is ideal for rooms up to 129 sq. ft., and it has an impressive heating distance of up to 5 meters. It utilizes a carbon fiber heating element with a halogen bulb, which produces a low glare and efficient infrared heat. This unit has a durable aluminum shell for long-lasting use. It can be mounted on the wall or ceiling using the included hardware.

This heater is easy to operate with the included remote control. It features 2 different power levels to suit the specific needs of your space. Plus, it has a timer control to select a runtime of up to 24 hours. This heater boasts a sleek black color, and it is IP54 rated for protection against dust and water. For safe use, it includes overheat protection. It requires a 240V hardwired electrical connection for operation.
