Assembled in the USA

The Capitano® is unique because of its special elongated spiral. The pitch (distance between the twists) has been increased for easy, more positive insertion into the cork. The nickel plated spirals have the file, or etched line, running down the spiral which cuts into the cork more quickly. Non-stick coated spiral is a smooth, non-file version. Crafted in France. Capitano corkscrews are 5-3/8" long by 1" Wide.
