<b>Style</b>	Wire Rack
<b>Type</b>	Deck Ovens Snack Ovens
<b>Usage</b>	Frozen Product

## Notes & Details

Quickly whip up deliciously cheesy pizzas and other warm snack foods with the Carnival King CPO12 stainless steel countertop pizza / snack oven! Great for snack bars, concession stands, and any place where customers are looking for a snack on the go, this countertop oven makes it easy to add a variety of hot concession foods to your menu. Two heating elements deliver a total of 1450W and a cooking temperature of 450 degrees Fahrenheit, giving offerings like pizza a crispy crust in only 15-20 minutes. Thanks to a 30 minute timer, you can set your oven to perfectly bake each food item on your menu.

Made from rugged stainless steel, this sleek snack oven is durable enough to stand up to the rigors of even high-volume kiosks and concession stands. The stainless steel construction is incredibly easy to wipe clean. Plus, a removable crumb tray is located on the bottom of the unit to catch crumbs as they fall off the product during baking to make routine cleaning a breeze. This unit also sits on non-skid feet to help keep it in place on countertops.

This oven comes with a wire baking rack to easily load and unload frozen pizzas, and it also accommodates 1/8 or 1/4 size sheet pans for other ready-to-eat snacks. It has a 2 1/2" tall opening for the wire product rack, which is wide enough to accommodate a 12" pizza perfectly. The cool-touch handle allows your staff to safely remove piping hot food from the oven. Not to mention, this model is stackable with other identical pizza / snack ovens to save room on your countertop and increase output by heating multiple items at once. Add this pizza / snack oven to your stand or kiosk to expand your menu offerings! It requires a 120V electrical connection for operation.
