Item #382PCCMXBAR

## Technical Data

Type	Cross Bars
------	------------

## Features

- Direct replacement for original part
- Includes a pair of crossbars that fasten to the wheel frame and leg assembly
- Fastens with bolts

## Notes & Details

This Carnival King 382PCCMXBAR crossbar set can be used to fix a damaged or broken one on your CCM21CT cotton candy machine! If you find that your frame becomes significantly damaged or bent, it is important to replace it promptly so that your machine remains stable and safe during operation and while in transit from location to location.

This assembly is a pair of crossbars that help secure your wheel frame and leg assembly for better stability, and it attaches using the same bolts that were on the original crossbar. If replacing the crossbar, it is also a good idea to inspect the legs and be sure that they are in good condition.
