Control Type	Dial
Dispenser Type	Bottle
Installation Type	Countertop
Material	Stainless Steel
Number of Compartments	3 Compartments
Plug Type	NEMA 5-15P
Power Type	Electric
Temperature Settings	Adjustable
Type	Warmers

## Certifications

 CE Marking  5-15P  ETL Sanitation  ETL, US & Canada

## Notes & Details

An excellent addition to concession stands, ice cream shops, and frozen yogurt bars, the Carnival King triple 24 oz. sauce / topping bottle warmer serves as a versatile warming station. It not only fits a #10 can for bulk dispensing, it includes (6) 24 oz. squeeze bottles and a 201 stainless steel insert with 3 laser cut holes. Each hole accommodates a 16 oz. squeeze bottle (sold separately), keeping it upright and easy to retrieve. This makes it easy to drizzle delicious toppings over frozen yogurt or ice cream, especially during the daily rush.

With just a manual temperature control, this machine is simple to operate; the temperature adjusts as you turn the dial. Serving hot fudge, warm caramel, and other sweet sauces elevates a dish and allows customers to customize their order.

Because it's stainless steel, this warmer provides long-lasting performance. It also rests atop 4 rubber feet that keep it securely in place during use. A 120V electrical connection is required for operation.
