Temperature	120 - 570 Degrees F
Type	Crepe Makers

Notes & Details

Serve up hot, freshly made crepes with the Carnival King CM16DBL 16" dual crepe maker! Designed for maximum space-efficiency, the double unit features (2) 16" non-stick coated cooktops in a single, rectangular base. It's perfect for busy, high volume creperies, breakfast buffets, or cafeteria crepe stations. This crepe maker features a commercial grade non-stick coating that is designed for maximum performance. The non-stick surface allows for crepes to be easily released without ripping or tearing, giving you perfect results time after time.

Each cooktop is operated with an independent and adjustable thermostatic control. The controls adjust the temperature of each cooktop from 120 to 570 degrees Fahrenheit, while warming and ready lights help you monitor the unit's operation. For safety purposes, the unit features non-slip feet to grip to the countertop during use. Plus, to help you whip up crepes, a T-shape metal crepe spreader and spatula are included. This crepe maker requires a 208/240V electrical connection for operation.
