Control Type	Infinite
Dispenser Type	Ladle Pump
Features	Inset Included Merchandiser
Installation Type	Countertop
Material	Stainless Steel
Number of Compartments	1 Compartment
Power Type	Electric
Style	Warmer
Temperature Control	Adjustable

Notes & Details

An excellent addition to concession stands, buffet lines, and other foodservice operations, this Carnival King WPLL35 3.5 qt. warmer provides you with a simple way to heat and serve nacho cheese, hot fudge, chili, and even soup and gravy! This warmer accepts #10 cans and can fit up to a 3.5 qt. inset or select bain marie pots (sold separately) for invaluable versatility. It allows you to place canned items directly into the warmer or, if your food comes bagged or in different packaging, to fill a bain marie pot instead.

For applications that utilize the pump and spout mechanism, use a #10 can to dispense product to closely monitor portions to help save on costs. The pump feature is not designed to be used directly with an inset, only with a #10 can. If you are not using a #10 can, this product must be used with an appropriately sized bain marie pot.

The ladle makes serving your delicious product a breeze while the notched lid keeps the contents piping hot and gives the ladle a convenient resting place.

This warmer comes with 3 decals for simple product identification, including hot fudge, nacho cheese, and hot chili. The decals slide in and out so that you can easily use your own custom decal or, if your needs change, serve different toppings out of the same warmer. With just a manual temperature control and an on/off toggle switch, this machine couldn't be any easier to operate! The unit's stainless steel construction helps to ensure long-lasting performance and rests atop 4 rubber feet that keep it securely in place during use. A 120V electrical connection is required for operation.

Kit Includes:

- 1 pump
- (1) 2 oz. stainless steel ladle
- 1 stainless steel lid
- 1 vegetable inset
