Notes & Details

Perfect for catering and take-out operations, this CaterGator black front loading insulated food pan carrier with Vigor stainless steel hotel pans and lids delivers the durability and the stability your food needs to arrive intact and at the proper temperature. This set includes a food pan carrier along with five full size 2 1/2" deep stainless steel hotel pans and five stainless steel hotel pan covers. Made of durable polyethylene and insulated with polyurethane foam insulation, this carrier helps maintain the proper temperature prior to delivery, keeping hot food hot or cold food cold for up to 7 hours. For use with cold dishes, pre-chill the unit with its door open in a walk-in refrigerator or freezer. For pre-heating the unit, place a hotel pan of hot water into the unit, and close the door for 20 minutes prior to loading your hot dishes. It includes plastic latches that securely lock the door to retain temperature. It also includes steel reinforced plate hinges to resist breakage and to ensure longevity. The door even swings open a full 270 degrees for easy access. For convenient transport, the unit features molded-in handles that are both durable and ergonomic. This design allows the carrier to stack with similar Carlisle and Cambro carriers and simplify storage.

The included 21 1/2" deep pans are made of durable 22 gauge stainless steel so that it's built to last through heavy commercial use. These pans are large enough to hold 8.3 qt. of your signature entrees, casseroles, and salads. These stylish and efficient pans feature round, tapered corners for easy scooping and pouring of foods or liquids. Its flattened edges keep steam from escaping around the pan, providing much higher heat efficiency than comparable pans with bent edges. Plus, the flattened edges provide a comfortable grip for easy holding and transporting. These pans feature an attractive and stylish finish, and they each include a lid for your convenience. Their smooth, bright construction fits in with any traditional or contemporary service station. They are also oven- and freezer-safe. When it comes time to store, the anti-jam design allows for easy stacking and release. The pan covers are made of polished stainless steel with a center handle for easy use. Reinforced edges add strength to the cover the perimeter, so these covers are highly durable. They aid in maintaining the temperature of your food, and their flat design is ideal for stacking and storing when they are not in use.

Set Includes:

- (1) CaterGator black front loading insulated food pan carrier
- (5) Vigor full size 2 1/2" deep anti-jam stainless steel steam table pan / hotel pans
- (5) Vigor full size solid stainless steel steam table / hotel pan covers
