Notes & Details

Designed for transport, the CaterGator Dash black full size 8" deep flip down top load carrier with two full size 2 1/2" deep stainless steel hotel pans and lids provides the versatility and quality you need to safely deliver food. The food pan carrier holds (1) 8" deep full size food pan to accommodate any of your signature dishes. Because the carrier is made from expanded polypropylene (EPP), it offers superior temperature retention and maintains hot or cold food temperatures for up to 4 hours.

This set includes two durable 24 gauge Choice 18/8 stainless steel hotel pans that can be used to prep, store, transport, and serve food items. The stainless steel hotel pan features reinforced corners, adding strength to prevent denting so the hotel pans will be ready for long-lasting use in your commercial kitchen. To keep your food stored as hygienically as possible, this kit also includes stainless steel hotel pan lids. Each pan features anti-jam stacking lugs so it won't stick to other pans, allowing you to save space by stacking pans without worrying without a hassle the next time you want to use them.

This insulated pan carrier set is excellent for transporting foods to offsite locations, making it perfect for catering businesses, food trucks, and other mobile operations. The food pan carrier offers professional grade construction made from expanded polypropylene (EPP). This closed-cell bead foam provides thermal insulation with a high level of durability to weight ratio, plus it's an excellent energy absorbing material that withstands multiple impacts without damage. It also offers excellent impact, water, and chemical resistance. Not only a durable and lightweight option, this carrier is an eco-friendly choice for your business.

For easy storage between uses, this carrier can be folded down to the side of a typical insulated food delivery bag. This maximizes your limited storage space and helps to save on shipping costs. It's even stackable, allowing for effortless transport in cars or vans. It includes molded-in handles for easy transportation that are both convenient and ergonomic. This design allows the carrier to stack with similar carriers and simplify storage.

Delivering quality products at a fair price, CaterGator is the ideal serving solution for catering businesses, hotels, food trucks, and concession stands. Upgrade your catering services with this insulated food pan carrier!

Kit Includes:

- (1) Top loading insulated food pan carrier
- (2) Full size 2 1/2" deep stainless steel hotel pans
