Certifications

Notes & Details

A must have accessory for your CaterGator Dash EPP insulated food pan carrier, this CaterGator Dash red full size hot board is convenient and easy to use. This board will extend the temperature holding times of your hot foods beyond 4 hours in a CaterGator Dash end or top loading EPP carrier (sold separately). Simply place the board in water no hotter than 200 degrees Fahrenheit for 35-60 minutes, and slide or place into your carrier.

This board lays flat in carriers and comes equipped with distance knobs that prevent the board from sticking to the pan. A built-in handle conveniently lifts the board in and out of the carrier to avoid injury. Add convenience and efficiency to your catering operation with this full size hot board! Please refer to the resources and downloads section to view the full instructions on how to properly and safely operate your hot board.

Delivering quality products at a fair price, CaterGator is the ideal serving solution for catering businesses, hotels, food trucks, and concession stands. Upgrade your catering services with this insulated food pan carrier!
