FEATURES

- Positively charged solution is drawn towards oppositely charged objects for maximum coverage.
- Ideal for disinfectants and cleaning formulas. Turn the Electrostatic feature on or off depending on the solutions you use.
- Four interchangeable nozzle sizes from 40 to 160 microns allow for the flexibility of multiple spray patterns.
- Up to 8 hours of run time and 60 gallons on a single charge.
- 2-gallon sprayer comes with a comfortable mesh backpack allowing for one-handed operation.
