### DIRECTIONS

For use on clogged or slow-running drains. Pour 16 oz. slowly over drain. For extremely slow-running drains or complete clogs, pour 32 oz. Allow to work for 15 minutes. For tough problems, allow 30 minutes. Flush with hot water. Repeat if necessary.

**IMPORTANT:** Do not mix with acids or any other cleaning products. May release dangerous gases (chlorine). Use only with water. Avoid contact with ammonia compounds, rust remover and strong acids. Open carefully and wear appropriate PPE during use. Keep away from hands, face, children and animals. Do not squeeze the bottle, avoid splashing, and clean up spills right away. Never use a plunger during or after use of CLOG B-GONE ULTRA. Do not reuse empty container. Rinse container and replace cap before discarding. Keep container tightly closed. Use only in a well-ventilated area. Do not use with septic systems as caustic substances can kill the beneficial bacteria necessary for breaking down sewage, leading to system failure and can severely affect the digestion process of the septic system.
