3/4" Gas Connection

## Notes & Details

Boasting 4 powerful 22,000 BTU burners with standing pilots for instant ignition, this Cooking Performance Group 24-CPG-6BOB natural gas 24" 4 burner range with storage base gives you the high performance cooking solution you need to quickly and easily prepare sauces, sides, or entrees! The heavy-duty cast iron grates are oriented in a flat alignment so that you can easily slide pots and pans from one burner to the next without worrying about spills, and they also help protect the burners against clogs resulting from overflow. A full width waste tray helps expedite end-of-day cleaning.

The durable equipment base features an open design for maximum access to the storage space below, which is perfect for storing pans and utensils for upcoming cooking tasks. The base's 16-gauge stainless steel ensures not only a sleek, attractive appearance, but also great longevity in even the toughest kitchen environments. Plus, its welded design and 6" legs make cleaning in and around the unit easy! This unit has a 3/4" rear gas connection and ships ready to connect to a natural gas supply, but can be field converted to liquid propane.
