Total BTU	80000 BTU
Type	Lava Rock Charbroilers
Usage	Medium Duty

### Notes & Details

Tempt your customers with the intoxicating aroma of grilled burgers, chicken, steak, and more by cooking them on this Cooking Performance Group 24-CPG-CBLR natural gas 24" lava briquette charbroiler with storage base! It boasts two powerful 40,000 BTU stainless steel U-shaped burners to heat your included lava briquettes, which in turn evenly distributes the heat toward your food. It also catches the drippings to create that unmistakably smoky "outdoor barbecue" scent and flavor that customers crave. The reversible cast iron top grates give your meats tantalizing grill marks, sporting a thin side that's perfect for searing and a thick side that's great for your more delicate foods. They can also be used in a flat or sloped position so that you can simultaneously cook various foods to the desired level of doneness!

The durable equipment base features an open design for maximum access to the storage space below, which is perfect for storing pans and utensils for upcoming cooking tasks. The base's 16-gauge stainless steel ensures not only a sleek, attractive appearance, but also great longevity in even the toughest kitchen environments. Plus, its welded design and 6" legs make cleaning in and around the unit easy! This unit has a 3/4" rear gas connection and ships ready to connect to a natural gas supply, but can be field converted to liquid propane.
