Cooking Performance Group 36SUSWPNL 36" Step-up 6 Burner Countertop Range with Regency Equipment Stand, Wooden Adjustable Work Surface, and Plate Shelf - 180,000 BTU

Notes & Details

Enable the ultimate cooking convenience with this Cooking Performance Group 36SUSWPNL 36" step-up 6 burner countertop range with Regency equipment stand, wooden adjustable work surface, and plate shelf. Boasting 6 powerful 30,000 BTU burners with standing pilots for instant ignition, this Cooking Performance Group SR-CPG-36-NL countertop range gives you the high-performance cooking solution you need to easily prepare sauces, sides, and entrees! The heavy-duty cast iron trivets are oriented in a step-up alignment so that you can easily access pots and pans on the rear burner, and they also help protect the burners against clogs resulting from overflow.

This 6 burner countertop range features an all stainless steel construction to ensure long-lasting durability and easy cleaning, while a full width waste tray also helps expedite end-of-day cleaning. It ships ready to connect to a natural gas supply but includes a liquid propane orifice kit for simple field conversion.

The included stainless steel equipment stand is built to stand up to daily use in even the busiest commercial settings! It features a durable 16-gauge type 304 stainless steel top shelf that can support up to 800 lb. of evenly distributed weight, while the galvanized steel undershelf can hold 620 lb. This stand is ideal for holding up your countertop range or heavy countertop equipment. A 2" edging comes standard to help contain equipment and contents for added safety. This unit stands on sturdy galvanized steel legs with adjustable plastic bullet feet that allow you to level the stand on uneven surfaces.

Add even more utility with the included wooden adjustable cutting board, which will fit right onto the equipment stand. Not only does it provide a convenient surface for placing ingredients or assembling sides, but it's perfect for chopping, slicing, dicing, and even carving. It adds versatility to your equipment stand to maximize space. Plus, because it's made of 1 1/4" thick hardwood, it's sturdy and long-lasting and won't dull knives. Two stainless steel, curved legs attach the board to your 36" long equipment stand, and two stainless steel welded sockets hold it in place. This method of installation allows the cutting board to easily adjust in height; just raise or lower where the sockets screw onto the equipment stand.

To maximize your storage space, this kit comes with an additional stainless steel plate shelf. It provides a convenient place to store plates and your most commonly-used tools! Since it is made from stainless steel, you can count on this shelf to provide the durability and strength required in even fast-paced kitchens. The back splash is a great feature because it prevents messy spills from getting onto any equipment you have on your stand.

Kit Includes:

- Cooking Performance Group SR-CPG-36-NL 36" step-up countertop range / hot plate with 6 high output burners
- Regency 30" x 36" 16-gauge stainless steel equipment stand with galvanized undershelf
- Regency 10" x 36" wooden adjustable cutting board for 36" long equipment stands
- Regency 10" x 36" stainless steel plate shelf for 36" long equipment stands
