

Cooking Performance Group FGCD-10-DDN Deep Depth Single Deck Full Size Natural Gas Convection Oven - 50,000 BTU

3/4"

Item #: 351FGCD10DDN Qty:

Project: _____

Approval: _____ Date: _____

- Includes cook and cool down modes with a temperature range of 150 to 500 degrees Fahrenheit
- 2-speed fan evenly disperses heat throughout cavity for cooking efficiency
- Full size cavity houses 3 wire shelves
- Independent glass doors with Bakelite handles
- 120V, natural gas, 50,000 BTU total

Width	38 Inches
Depth	47 Inches
Height	57 Inches
Interior Width	29 Inches
Interior Depth	26 7/16 Inches
Interior Height	20 Inches
Amps	5.9 Amps
Phase	1 Phase
Voltage	120 Volts
Control Type	Digital

Cooking Performance Group FGCD-10-DDN Deep Depth Single Deck Full Size Natural Gas Convection Oven - 50,000 BTU

Technical Data

Door Type	Glass
Features	Energy Star Qualified Massachusetts Accepted Plumbing Product
Gas Connection Size	3/4 Inches
Installation Type	Freestanding
Material	Stainless Steel
Maximum Temperature	500 Degrees F
Number of Decks	Single
Number of Doors	2 Doors
Number of Racks	3 Racks
Oven Interior Style	Deep Depth
Plug Type	NEMA 5-15P
Power Type	Natural Gas
Size	Full Size
Temperature Range	150 - 500 Degrees F
Total BTU	50000 BTU

Notes & Details

This Cooking Performance Group single deck deep depth full size natural gas convection oven is an invaluable asset to any commercial kitchen. Perfect for virtually all cooking and baking applications, this oven provides the versatility your business needs. From a hearty lasagna to a delicate souffle, the oven can handle a wide menu of items to keep up with customer demands. Its dual-speed fan, adjustable racks, and generous temperature range all make it a must-have in professional food service.

Powered by 50,000 total BTU, the unit reaches temperatures from 150 to 500 degrees Fahrenheit. It operates with an electric automatic thermostat for reliable precision, making this oven great for countless menus and food service operations. This oven also has a digital control display. For safety, it features an automatic ignition system that activates in the event of a flameout. Plus, if ignition fails 3 times, the unit will automatically shut down.

For long-lasting durability and easy cleaning, the exterior and interior are constructed of sturdy stainless steel with a porcelain interior floor. This unit offers a built-in timer and a full size cavity that houses 3 adjustable wire racks. These racks rest on the 11 sets of slides along the interior side walls, so you can benefit from a variety of rack configurations to best accommodate your trays or full size food pans. It features a 26 7/16" deep interior.

This unit allows you to switch the built-in convection fan between 2 modes, cool and cook, and 2 speeds, high and low. This gives you control over the oven's operation so it works best for your tried-and-true or experimental recipes. Additionally, the 2 independent glass doors provide excellent visibility while closed, allowing you to check on dishes without releasing hot air and reducing the chamber temperature. The doors feature Bakelite handles that provide comfortable heat resistance. This oven requires natural gas and a 120V electrical connection for operation.
