3/4" Gas Connection

## Notes & Details

---

Boasting 6 powerful 30,000 BTU burners with standing pilots for instant ignition, this Cooking Performance Group CK-HPSU636 countertop range with storage base gives you the convenient, high performance cooking solution you need to quickly and easily prepare sauces, sides, and entrees! The heavy-duty cast iron trivets are oriented in a step-up alignment so that you can easily access pots and pans on the rear burner, and they also help protect the burners against clogs resulting from overflow.

This 6 burner countertop range features an all stainless steel construction to ensure long-lasting durability and easy cleaning, while a full width waste tray also helps expedite end-of-day cleaning. It ships ready to connect to a natural gas supply, but includes a liquid propane orifice kit for simple field conversion.

Not only do you receive the range, but you get a storage base to place it on, too! This particular storage base is built for optimal durability and ease of use, conveniently featuring an open design for maximum access to the storage space below. This makes it perfect for storing pans and utensils for upcoming cooking tasks. Plus, the base's 16-gauge stainless steel ensures not only a sleek, attractive appearance, but great longevity in even the toughest kitchen environments. Because stainless steel is naturally corrosion-resistant, the inevitable spill or leak won't damage or mar the surface. Both its welded design and its 6" legs make cleaning in and around the unit easy.
