COUNTER MOUNT

• *Patented Innovative Self-Sealed System*

• *Unique Fill from Above the Counter*

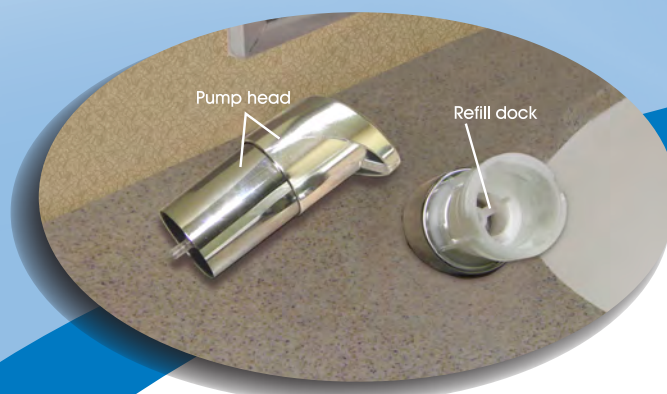

• *Saves Labor Time & Money*

COUNTER MOUNT

PATENTED DESIGN — Refills from ABOVE the Counter!

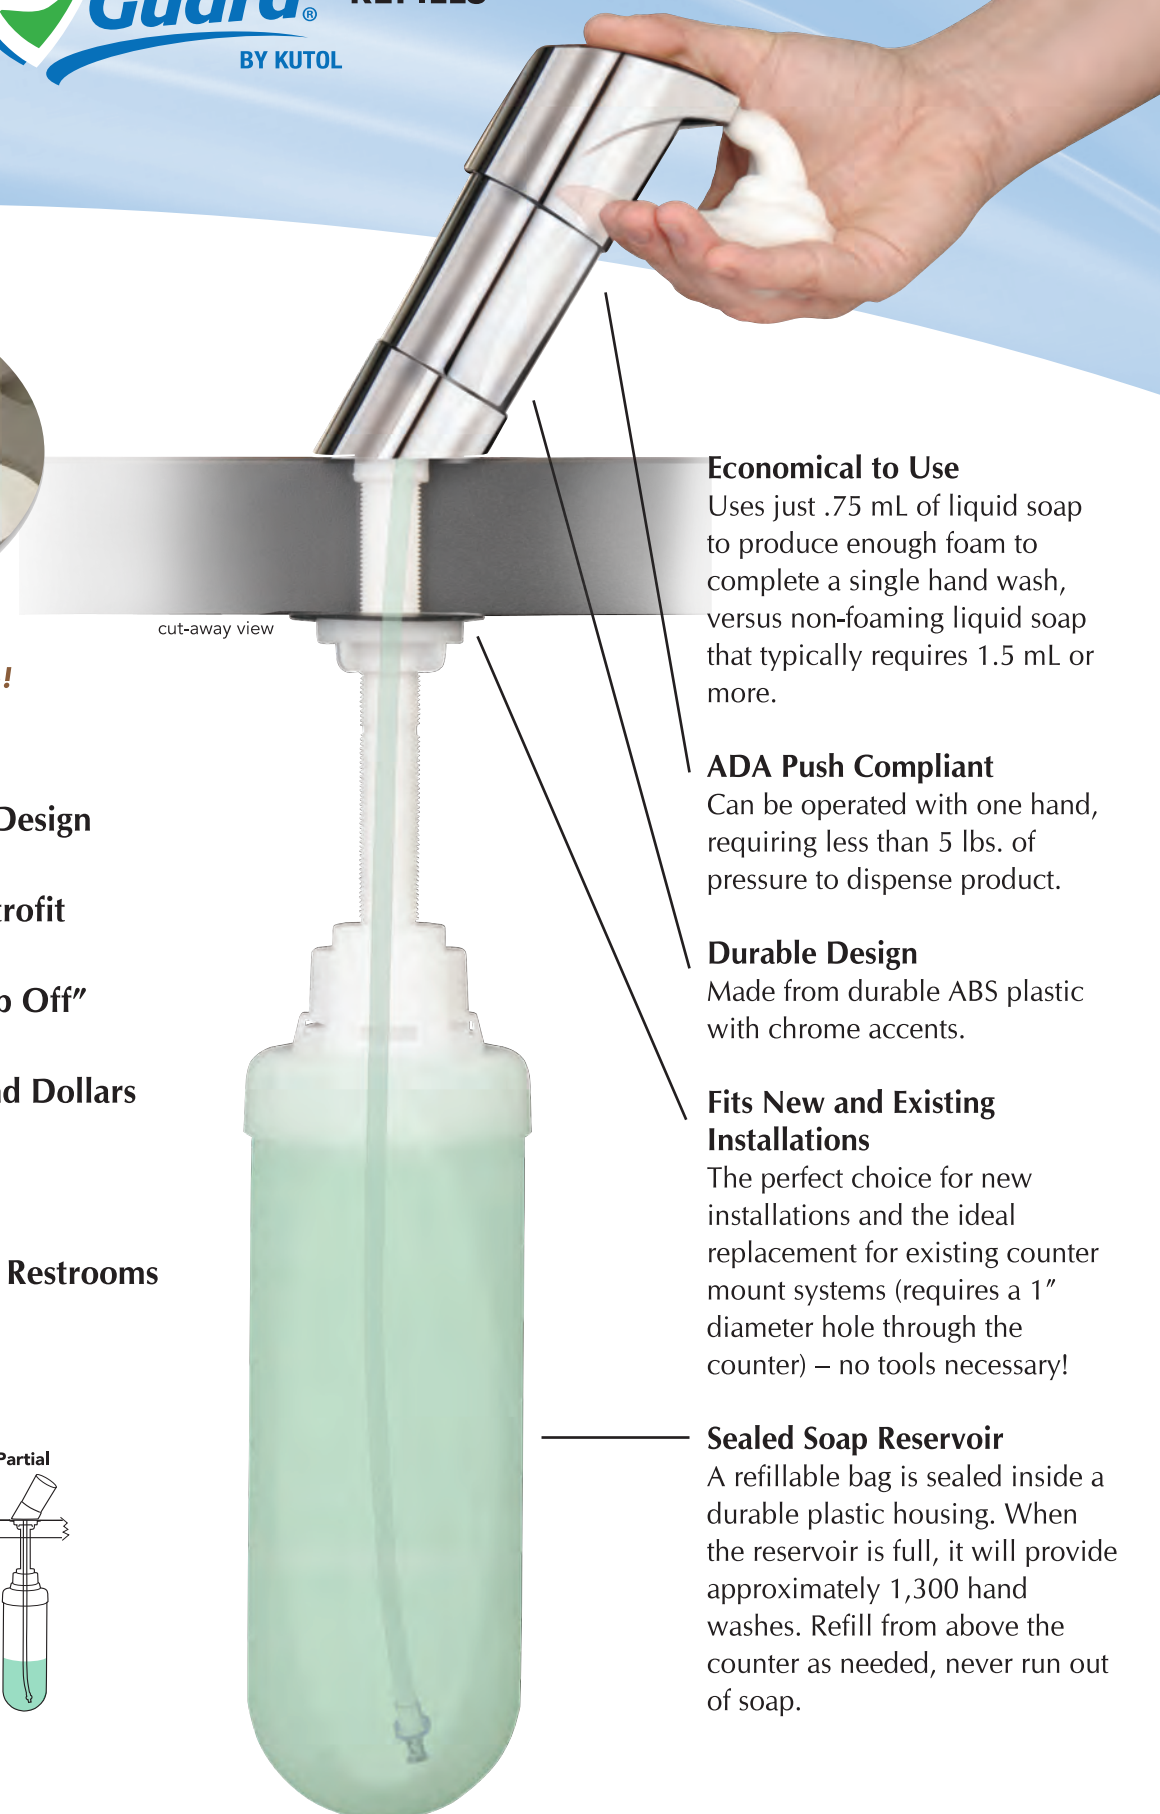

Simply remove the pump head...

Insert bag into the refill dock so the soap flows ...

Replace the pump and you're ready to go!

Economical to Use

Uses just .75 mL of liquid soap to produce enough foam to complete a single hand wash, versus non-foaming liquid soap that typically requires 1.5 mL or more.

ADA Push Compliant

Can be operated with one hand, requiring less than 5 lbs. of pressure to dispense product.

Durable Design

Made from durable ABS plastic with chrome accents.

Fits New and Existing Installations

The perfect choice for new installations and the ideal replacement for existing counter mount systems (requires a 1" diameter hole through the counter) – no tools necessary!

Sealed Soap Reservoir

A refillable bag is sealed inside a durable plastic housing. When the reservoir is full, it will provide approximately 1,300 hand washes. Refill from above the counter as needed, never run out of soap.

Upgrades Any Decor

Available in Black or Chrome - the most popular design choice for restrooms.

Multi-lingual Labeling with Illustrated Instructions

All refill bags are labeled in English, French and Spanish with easy filling instructions.

Quick, Clean and Convenient

Our innovative system refills from above the counter using a patented refill "dock" and unique resealable refill bags. Simply remove the pump head, insert and turn the bag to open and let the soap flow into the sealed reservoir. Once filled, replace the pump head and the dispenser is ready for use.

Sealed & Self-Contained Sanitary System

The EZFOAM® Counter Mount Dispensing system is completely sealed and self-contained to eliminate the risk of contamination. The refill bag only opens when locked into the refill dock. When you remove the refill bag, both refill bag and refill dock reseal to keep out water and air. When the pump head is locked in place, the system is again sealed to keep out water and air.

Refill One or "Top-Off" Multiple Dispensers

Each dispenser is designed to hold the contents of a full refill bag. However the resealable refill bag allows you to easily "top-off" multiple dispensers and store the remainder for future use.

- Patented "Top Fill" Design
- Easy to Install or Retrofit
- Easy to Refill or "Top Off"
- Saves Labor Time and Dollars
- Saves Soap
- Cleaner & Healthier Restrooms
