The elegant curve of our Curl Riser Sets looks like an optical illusion, but it's actually the result of careful, artisanal crafting. Whether you're using them to lift up hors d'oeuvres, salads or desserts, guests will be drawn to their attention-demanding shape. Each set includes three different-sized risers.

Each riser in this set is individually textured with a ball-peen hammer, giving it an elegant, one-of-a-kind texture that complements your own hand-crafted creations and also resists smudging. The dramatic curls evoke a classic column, elevating your menu items to the level of masterpieces. And because of their similar shapes, these risers nest for compact storage when not in use. Who says "beautiful" and "easy" can't go hand in hand?
