Adjustable leveling leg shown at lowest setting. Adjustment range is 2.125 inches.

Dome position fully opened

This dimension is the furthest point the dome protrudes back as it opens. It is 3.091 inches further back than the rear of the cabinet.

Dimension from the open lid of the dome to the back of the cabinet.

The junction box for electrical connections is located behind the removable back panel. A section of the back panel has been removed for clarity.

For LP applications that are not connected to a bulk supply, a pull-out propane tank drawer is factory installed along with a hose and regulator assembly to attach to a 20 lbs. tank (not supplied). A shelf is also installed to prevent the storage of a second propane tank per the residential standard for outdoor cooking appliances ANSI Z21.58-2018 and CSA 1.6-2018

Storage area below the grill is shown with the optional garbage drawer.

Storage area below the grill is shown with the optional utility drawer. The cabinet can accommodate a single or dual drawer as shown.
