## Care and Handling

Improper handling has always been the main reason for breakage or chipping. To minimize this, please follow these rules: Do not overload bus boxes and dish racks; do not use metal utensils to scrape food off dishes; do not pile heavy items onto lighter ones; do not stack plates too high; avoid nesting cups; avoid high water pressure when washing dishes; make sure the warewashing machine has rubber guards; and wash "prep area" should have protective matting on floor. Scratches and metal markings can be the result of many causes. To avoid this, please observe the following: Avoid sliding plates on steel counters; do not scour dinnerware with metal pads, steel wool or abrasive cleansers; do not allow food to dry on plates, as cleaning of the stuck food may cause scratch marks; dinnerware should be placed in a soapy water solution upon removal from the table; and avoid overworking your china due to inadequate inventory levels. Staining could be the result of a number
