

CT01-1000 Containment Tray

SPECIFICATIONS

DIMENSION	IMPERIAL	METRIC
Length	49 in	124.5 cm
Width	48 in	123 cm
Height	4 in	10 cm
Weight	26 lb	12 kg
Capacity (Empty)	39 gal	148 ltr
Capacity (PJ3 - PJN3 - Fleet w/FS3-0018 Base)	32 gal	121 ltr
Capacity (Fleet w/FS3-0019 Base)	28.5	108 ltr

For use where Federal, State and Local codes require procedures and practices to minimize or eliminate the discharge of pollutants from equipment cleaning operations to storm drain systems or to watercourses.

- Thermoformed from tough, impact resistant high molecular weight, high density polyethylene (HMWHDPE).
- Serves as a drip tray to contain water and cleaning solutions during servicing.
 - Trays are light weight and can be "nested" for transport economies.
 - Fluids drain towards the rear of the tray to a convenient pump out location.
 - The trays have a peripheral lip that guides fluids into the pan.
 - Will fit most portable restrooms.
- Support ribs for extra strength beneath the "runners" to raise them out of fluids between servicing.
(Great for wood skids).
