

PRO HEPA 20 has more capacity (20-Gallons) than any other HEPA Vacuum in its class. Equipped with an individually tested and certified HEPA filter, designed for the professional contractor recovering a wide range of materials including asbestos, lead, silica and other hazardous materials. Rotational molded polyethylene tank with built-in handle, large rear wheels and front swivel casters allow easy transporting even with a full tank of debris or liquids. A reliable liquid shut-off allows the operator to vacuum liquids uninterrupted until the tank is full and without risking damage to the HEPA filter

Features

- ✓ 2 HP commercial grade, 2 -stage bypass motor
- ✓ 120V outlet with on/off activation of vacuum motor using power tool or other appliance
- ✓ 50-foot power cord for working large areas without stopping to locate an outlet
- ✓ Individually tested and certified HEPA Filter, minimum efficiency of 99.97% at .3 microns based on particle count test method, IEST-RP-CC001
- ✓ Dacron Filter Bag prevents interruptions due to clogging and loss of airflow
