

## DIXIE® QUAT-COMPATIBLE DISPOSABLE FOODSERVICE SURFACE SYSTEM REFILLS BY GP PRO (GEORGIA-PACIFIC), WHITE, 6 CENTERPULL ROLLS PER CASE

### Description:

Dixie® Quat-Compatible Disposable Foodservice Surface System Refills are designed for use with the Dixie Ultra™ Surface System Wipe Dispenser for Foodservice (54026). They come in a convenient centerpull roll that threads easily through the dispenser lid. The quat-compatible wipes can be used with a wide range of sanitizers and disinfectants.\* And the system can retain proper sanitation levels significantly longer than open-bucket systems with cloth towels.\*\*

\*Dixie Ultra™ Surface System wipes can be used with sanitizers containing: quaternary ammonium compounds (quat), peroxide, peroxide with peracetic acid, isopropyl alcohol (70% solution), bleach and phenolic.

\*\*Quat (or quaternary ammonium chloride) is the active ingredient in most sanitizers and disinfectants. Testing measured quat sanitizer loss as a function of time for Dixie Ultra™ Surface System wipes, cotton bar mops and microfiber cloths.

The dispenser's tight-fitting lid virtually eliminates the risk of spills, splash or vapors associated with open buckets ... which your patrons will appreciate. And with the ergonomic handle, it's easy to move from table to table in the front of house, and station to station in the back of house.

\*Dixie™ Surface System wipes can be used with sanitizers containing: quaternary ammonium compounds (quat), peroxide, peroxide with peracetic acid, isopropyl alcohol (70% solution), bleach and phenolic. \*\*Quat (or quaternary ammonium chloride) is the active ingredient in most sanitizers and disinfectants. Testing measured quat sanitizer loss as a function of time for Dixie Ultra™ Surface System wipes, cotton bar mops and microfiber cloths.

### Features and Benefits:

- \*Tested with a variety of Quaternary Ammonium Compounds (Quat)-based disinfectants and generic terry cloth and microfiber towels. (Note: When used with an EPA-registered disinfectant, the EPA master label must contain directions for applying with a cloth. Please follow directions for use.)
- CAN MAINTAIN QUAT-SANITIZER CONCENTRATION levels significantly longer than cotton towels and microfiber cloths.\*

### PRODUCT DETAILS
