“Drip” is a good thing in the world of hip hop. In the world of buffets, not so much. With the help of our stainless steel Drip Trays, you need not worry about errant puddles that gather underneath your beverage urns. Less wet messes means greater safety, making these handy little pieces a no-brainer.

This unobtrusive 5-1/2″ diameter round drip tray is sleek and simple, so it won’t impede your carefully designed buffet presentation. Because it’s stainless steel, even your drip tray can look like a million bucks. Simply place it under the offending urn, and stop worrying about messy leaks.
