EcoMade™ Melamine: THE FACTS

- One of the most environmentally friendly commercial grade melamines available in the market
- Made from 50% sustainable natural resources vs. 20% in standard melamine
- Contains a material that will begin to biodegrade in 90 days in a compostable environment
- Withstands the rigors of commercial foodservice dishwasher use
- Maintains its appearance after one year of dishwasher testing
- NSF Listed

A new way to **dress**
up your tabletop

Tableware that **gives back** in more ways than one...

Balsam™ Displayware

Balsam & Dayton offer the following benefits:

- Melamine made from 50% sustainable natural resources lends a hand to sustainability initiatives
- Clean lines and simple shapes make Balsam Displayware ideal for environments where prepared food is displayed in front of the customer
- Displayware allows food to be prepared in advance, covered with Palette Displayware™ Covers (food pans only) and transported to site
- Heavyweight, economical melamine looks like china without the replacement costs

When you select Carlisle products bearing the EcoMade logo, you can be confident you are purchasing earth-friendly products that support your green efforts in one or more of the following ways:

Conserving **NATURAL RESOURCES**

Respecting the environment by reducing the amount of energy or other resources usually needed to complete the task.

Embracing **SUSTAINABILITY**

Utilizing natural raw materials in a way that will not permanently destroy the resource for use by future generations.

Increasing **RECYCLING**

Reusing materials that would ordinarily be discarded into the waste stream.

Supporting **COMPOSTING**

Using organic materials that will decompose in an aerobic environment.

Facilitating **BIODEGRADABILITY**

Selecting materials that will degrade under natural conditions.
