Notes & Details

Steam milk to perfection with this Estella Caffe automatic pourover milk steamer! This machine is perfect for steaming and frothing your milk offerings to help provide your guests with delicious, warm beverages effortlessly. The durable stainless steel body features 1 cool-touch, anti-heat stainless steel steam wand that provides individualized automatic temperature control and continuous steam in under 1 minute.

This milk steamer boasts a programmable digital screen, allowing you to adjust the temperature from 104-194 degrees Fahrenheit with the touch of a button. Create foam for a variety of specialty drinks such as lattes, cappuccinos, chai tea, and hot chocolate with efficiency and precision by using the steamer's short memory function to program 2 preset settings. Once the programmed temperature is reached, the machine will automatically stop. In addition to the 2 preset settings, the display also features buttons for a short flush cleaning and a complete cleaning, ensuring that your machine stays clean for optimal performance. Additionally, the stainless steel body is easy to clean so that your machine is presentable in your establishment.

The steamer includes a 0.8 liter integrated water reservoir and features a 1,450W heating element, which makes operating this machine simple and convenient. The machine comes ready with a removable drip tray and stainless steel pitcher to streamline your milk frothing process. It requires a 120V electrical connection for operation and comes with a 5' power cord.
