Notes & Details

Steam milk to perfection with this Estella Caffè automatic digital milk steamer! This machine is perfect for steaming and frothing your milk offerings to help provide your guests with delicious, warm beverages effortlessly. The durable stainless steel body features a cool-touch stainless steel steam wand that provides automatic temperature control and continuous steam, allowing you to produce delicious drinks time after time.

This milk steamer boasts an easy-to-read and programmable LCD touchscreen, allowing you to adjust the temperature from 140 to 160 degrees Fahrenheit. Create foam for a variety of specialty drinks such as lattes, cappuccinos, chai tea, and hot chocolate with efficiency and precision. Once the programmed temperature is reached, the machine will automatically stop. In addition to setting the temperature, the programmable touchscreen allows you to calibrate and adjust automatic hot water output settings, setting water volumes for the hot water wand to program 3 preset water volumes for the unit to dispense automatically. Plus, the stainless steel body is easy to clean so that your machine is presentable in your establishment.

This steamer features a 3,200W heating element, which makes operating this machine simple and convenient. The machine comes ready with a removable drip tray and dual 4 liter boilers. It requires a 220V electrical connection for operation and comes with a 5' power cord.
