Notes & Details

Grate up to 1.1 lb. of cheese per minute with this Estella CG12 electric hard cheese grater! For small businesses that use grated cheese for pizzas, breakfast foods, sandwiches, or baked goods, this grater is a great choice to process your own cheese for ultimate freshness. It can also be used with stale bread to make delicious breadcrumbs.

It has an opening that measures 4 5/16" x 2 1/2" to handle larger blocks of cheese. It is easy to use with a simple on/off control, and the unit will not operate until the handle is pushed down in the proper position for increased safety.

Since this grater has a durable aluminum alloy body and a stainless steel grater roll, you can be sure it's made to last. Plus, this machine is small enough to place on the countertop and it includes non-skid feet to keep it in place during operation. This model requires a 120V electrical connection and offers an output of 380W / 1400 RPM / 1/2 hp.
