Type	Cheese Graters

Notes & Details

Grate cheese for your establishment's signature dishes with this Estella CG2 electric hard cheese grater! Made with a durable stainless steel body with an anodized aluminum hopper and stainless steel grating roller, this item is designed to grate hard cheese for pizzas, breakfast foods, sandwiches, or baked goods for food stands, restaurants, and commercial kitchens, and it can also be used with stale bread to make delicious breadcrumbs. This cheese grater grates up to 4 lb. of cheese per minute and is made with a 7 1/2" x 3 3/4" top opening ideal for larger blocks of cheese, as well as a clear plexiglass container with a 5.25 qt. capacity.

This hard cheese grater features a compact design for tabletop or countertop use. It's easy to operate with simple on / off button controls and is designed not to begin grating until the pressure handle is pushed down in the proper position for added safety. It features a removable hopper and tray for convenient cleaning. This 2 hp cheese grater features a 9 3/4' power cord, a green power indicator light that confirms the machine is powered on, requires a 120V electrical connection for operation, and offers an output of 1,400W and 1,680 RPM. It's an ideal tool for processing cheese in your establishment for ultimate freshness!
