Туре	One Stage Dough Sheeters

#### **Notes & Details**

Sheet large batches of dough with ease using this Estella EDS12S countertop 12" one stage dough sheeter! This dough sheeter is designed to quickly and easily roll out dough with an absorption ratio of 50-60% up to 12" in diameter for anything from your signature pizza to your scratch-made pastries. Featuring a large hopper that accommodates 1 oz. to 10.5 oz. pieces of dough, this unit allows a single operator to roll out up to 250 pieces of dough per hour with ease! Its 12" long plastic roller easily adjusts to your desired thickness, ensuring a precise, uniform sheet of dough every time. Not only does this unit reduce the amount of physical work needed to create sheets of dough, but it also helps save on time and labor costs to further increase your operation's efficiency.

This dough sheeter features a 1/2 hp motor with a durable, heavy-duty stainless steel construction to provide long-lasting use in your establishment. Along with its ergonomic design, this unit's compact size helps save on valuable countertop space and allows for easy storage. A simple "on/off" switch located on the front of the unit provides easy operation, and its  $2\ 1/4$ " rubber, non-skid legs ensure the unit stays securely in place during use. A great addition to bakeries, pizzerias, and restaurants, this versatile unit is perfect for sheeting all types of dough including pie crusts, pitas, tortillas, and flat breads. This unit requires a 120V electrical connection for operation.
