## FEATURES • BENEFITS

Provides premium quality water to high flow fountain, coffee and ice machines

Sanitary cartridge replacement is simple, quick and clean; internal filter parts are never exposed to handling or contamination

Extended-life 4FC Cartridges feature balanced chemical and mechanical reduction for optimum performance in varying water qualities

Exclusive Fibredyne™ II submicron carbon block technology provides superior chlorine taste & odor reduction and micro-filters dirt and particles as small as 0.5 micron in size by mechanical means

Proprietary Fibredyne II filtration media effectively inhibits the growth of bacteria on the filter media that decreases product life

Allows for optimal flow rate and contaminant reduction capacity in tight spaces

Reduces chlorine taste & odor and other offensive contaminants that can adversely affect the taste of beverages

Compact design, with 10" prefilter

SR-X Feeder with SS-XL ScaleStick® cartridge inhibits scale buildup in ice machines and coffee brewers

NSF/ANSI Standard 53 certified to reduce cysts such as *Cryptosporidium* and *Giardia* by mechanical means

## INSTALLATION TIPS

Choose a mounting location capable of safely supporting the full weight of the system when in operation.

Use 3/4" water line.

Fountain equipment connections are made to the outlet part of the system before the SR-X System.

Coffee brewer and ice machine connections are made after the SR-X Feeder; a tee is required.

Install vertically with cartridges hanging down and allow 2 1/2" (6.35 cm) clearance below the cartridge for easy replacement.

Flush cartridges by running water through flushing valve for five (5) minutes at full flow.

## OPERATION TIPS

Change filter cartridges on a regular six (6) month preventative maintenance program.

Change cartridges when capacity is reached or when pressure falls below 10 psi (0.7 bar).

Change SS-XL Cartridge before Hydroblend™ compound is completely used up.

Change Everpure EC110 Prefilter Cartridge when excessively dirty.

Always flush the filter cartridge at time of installation and cartridge change.
