

Geami WrapPak® EX MINI

Portable packing,
perfect presentation

Presentation

Perfect in-the-box presentation enhances the customer unboxing experience

Space savings

Material can be created on demand in any location

Cost effective

Less material is needed to provide optimal protection

Wrap your products for a perfect presentation

Geami WrapPak ExBox mini (EX mini) is a self contained, disposable and recyclable combination of die cut kraft paper and tissue interleaf that is used to cushion and protect fragile items during shipment. The Geami WrapPak EX mini expands the paper into a 3D honeycomb structure, providing a unique and environmentally friendly wrapping product. The extremely small footprint of the Geami WrapPak EX mini allows it to be placed on any table top or packing area, providing 450' of finished wrapping material.

Go Green

Our company works with FSC and SFI certified suppliers. Paper is a recyclable and a renewable source.

- Roll Length: 450'
- Paper Width: 12"

Our Added Value

Packaging Engineering

Ranpak will analyze your current packaging solution and perform a drop test, demonstrating how much shock is transmitted to your products through the packaging. Ranpak then suggests proper packaging techniques to improve protection and save costs.

Integrated Applications

The Ranpak Custom Engineering department can design modifications, customizations and other innovative solutions to integrate the packaging converter anywhere around, above or under a packing area.

Packaging Training

Training from our packaging experts can help your packers use up to 20% less packing material without compromising the quality of the packaging.

Successful in these industries

Cosmetics	Housewares	Food/Beverage	Pharmaceuticals
Electronics	Glassware	e-Commerce	Logistics
