FLAT® is a multi award winning levelling and stabilizing technology. Delivering functionality and **cost savings** never seen before in the hospitality industry.

FLAT® is **always on**, our table bases remain **stable** no matter where they are placed. **Automatically** they adjust to the surface below then **lock** firmly into position no matter how many times the tables are moved.

FLAT® also delivers a **"World's First"** with its unique ability to allow the user to **align** multiple tabletops together, **eliminating** the troublesome ridge **forever**!

FLAT® technology comprises two elements, the PAD (Patented Actuator Device) and the PUK (Patented Undercarriage Key) for a seamless engineered solution.
