Imprint area: 3" X 3" for Laser. 3" x 2" for Screen.

Terra Cotta has been widely used for centuries. Terra Cotta means "baked earth" in Italian. It is clay based, and in this case, fired and unglazed ceramic which remains porous when finished. When soaked with water the wine cooler maintains the temperature of pre-chilled wine. The natural cooling of wet Terra Cotta occurs when the natural evaporation of pores takes heat with it.
