Notes & Details

Storing and transporting fryer oil is convenient and safe with this Fryclone Smart Pail 9.5 gallon orange utility pail! This orange 9.5 gallon capacity pail is a great companion for filtering, collecting, or storing frying oil when it has reached the end of its usable life. It features a galvanized metal construction with a food compatible interior coating, making it perfect for transporting frying oil. Increase the efficiency of your commercial operation by using this pail to move oil quickly and safely.

This pail is designed for functionality so you can transport oil without mess or incident. It features a smart lid design for simple, clean pouring. Its lid is equipped with four quick locking clips to ensure that spilling will never be an issue. Plus, the side handles make it easy to lift, carry, and empty this utility pail.
