## Notes & Details

Save time and labor with this Garde DM14SC 1/4" heavy-duty vegetable dicer with suction cups! Incorporating convenience, efficiency, and versatility, this rugged dicer allows you to cut onions, peppers, celery, and other vegetables. It accommodates vegetables up to 6" long and allows employees to rapidly process a high volume of product so they're not wasting valuable time cutting food by hand during morning prep or your busiest hours!

A short throw handle with superior engineering enhances leverage for smooth, easy cutting in just one stroke. Combined with the razor sharp stainless steel blades, this user-friendly design ensures that even your newest employee will have no trouble operating it. And, because the stainless steel is resistant to corrosion, you'll never have to worry about blade contact with fruit juice and other acidic substances.

The sturdy cast aluminum construction holds up to the wear and tear of tough, daily use, while also providing years of reliable service. To ensure stability on your countertop, the base features suction cups so that it will not slide or tip during operation but can still be moved and stored away when it's not in use. For easy maintenance, the blade assembly and push block come apart quickly when it's time for cleaning.
