Features	Hand Wash Only NSF Listed Suction Feet
Installation Type	Countertop
Material	Cast Aluminum
Number of Wedges	6 Wedges

Technical Data	
Power Type	Manual
Type	Wedge Cutters
Usage	Heavy Duty

Notes & Details

Save time and labor in the kitchen with this Garde 6-wedge fry cutter! Crisp, golden french fries are a huge money-maker and a staple on menus everywhere. This rugged unit accommodates potatoes up to 6" long and allows employees to rapidly process high volumes of fries with consistent results. This not only saves you time, but it also delivers a repeatable final product that reduces waste and gives customers peace of mind that when they come in for an order of fries, they'll be getting the same quality they've come to expect.

With this cutter, you're not limited to just fries - use it to wedge oranges and lemons for garnishes, or to tackle other produce like onions and tomatoes. With the versatility of being able to stock your bar with freshly cut fruit while also mainstreaming your side offerings, this unit can benefit your entire operation. A short throw handle with superior engineering enhances leverage for smooth, easy cutting in just one stroke. Combined with the razor-sharp stainless steel blades, this user-friendly design ensures that even your newest employee will have no trouble operating it. For easy maintenance, the blade assembly and push block come apart quickly when it's time for cleaning.

The stainless steel is resistant to corrosion, so you'll never have to worry about blade contact with tomato juice and other acidic substances. The sturdy cast aluminum frame holds up to the wear and tear of tough, daily use and provides years of reliable service. Plus, with the included countertop mount, this cutter is simple to install and easily mounts to your countertop thanks to its sturdy legs with pre-drilled holes. The mount boasts four suction cup feet, keeping the cutter securely in place while cutting.
