Height	10 Inches
Features	Hand Wash Only NSF Listed
Installation Type	Countertop
Material	Cast Aluminum
Number of Wedges	8 Wedges

Technical Data	
Power Type	Manual
Type	Wedge Cutters
Usage	Heavy Duty

## Notes & Details

Crisp, golden french fries are a huge money-maker and a staple on menus everywhere from food trucks to concession stands, so save time and labor with this Garde FCWDG8WM 8-wedge fry cutter! This rugged unit accommodates potatoes up to 6" long and allows employees to rapidly process high volumes of fries with consistent results. This not only saves you time, it also delivers a repeatable final product that reduces waste and gives customers peace of mind that when they come in for an order of fries, it'll be the same quality they've come to expect! But you're not limited to just fries - use it to wedge oranges and lemons for garnishes, or to tackle other produce like onions and tomatoes. This unit also comes with a wall mount bracket for hanging your fry cutter. Mounting the cutter to a wall saves valuable countertop space and accommodates high volume cutting into bulk containers while the vertical orientation uses gravity to make cutting even easier!

A short throw handle with superior engineering enhances leverage for smooth, easy cutting in just one stroke. Combined with the razor sharp stainless steel blades, this user-friendly design ensures that even your newest employee will have no trouble operating it. And, because the stainless steel is resistant to corrosion, you'll never have to worry about blade contact with tomato juice and other acidic substances. The sturdy cast aluminum frame holds up to the wear and tear of tough, daily use and provides years of reliable service. For easy maintenance, the blade assembly and push block come apart quickly when it's time for cleaning.
